User Guide

Due to popular demand we make the digitization project "Berlin Address" on the current status of work online.

The image quality of the image depends on the templates so that we could not prevent that there are a few hard-to-read pages.

Each vintage is on the alphabetical lists up to each of fifth Page indexed, born between 1939-1943 in addition to each individual page.

Our goal is to index in each volume to the single page - please be patient. We continue to work at the pace, such as money allows and / or staff to us. Nevertheless, a good search success.

Because of the indexing object you come in the keyword search does not always lead to a conclusion in such cases, please use the search systematic way.

Title evidence "Berlin Address Books 1799 - 1943"
